

### Furniture

**Form and finish** | Rough&Ready is an experimental furniture set designed by Vanja Bazdulj. It's inspired by exploring the potential of the imperfect, human, unpredictable and independence of mind. These designs are focused on exploring ambiguous forms, materials out of context and a playful approach to making. All material is prepared by hand, making each piece unique. Rough&Ready models can be altered according to client wishes and needs, be it in scale or colours.
